

Confirmation on REACH Regulation (EC) No. 1907/2006

(Regulation of Registration, Evaluation, Authorisation and Restriction of Chemicals)

As a manufacturer of drive components, **WATT DRIVE Antriebstechnik GmbH** is a downstream user according to the current REACH regulation. As per information from our suppliers, the materials we use or the products we supply do not contain any substances on the SVHC candidate list (ECHA, update from July 8th, 2021, 219 substances) or comply with the maximum permissible limit values.

EU suppliers of articles, which are processed in our products in relevant quantities, are obliged to inform us without prior request, if the products they supply contain an SVHC substance above the maximum permissible limit.

With all non-EU suppliers of articles, which are processed in our products in relevant quantities, we make separate agreements. We will be informed immediately in case the mass percentage threshold for an SVHC substance is exceeded in a product delivered to us.

As soon as we receive relevant information from our supplier and thus become aware that the mass percentage threshold for an SVHC substance is also exceeded in our products, we will inform you of our own accord.

EC Directive 2011/65/EC (RoHS)

The company **WATT DRIVE Antriebstechnik GmbH** herewith certifies that all WATT DRIVE products in their basic version according to catalogue (without options) meet the conditions of the EC Directive **2011/65/EC (RoHS)** Restriction of the use of certain hazardous substances. Although the EC Directive 2011/65/EC (RoHS) does not apply to low voltage motors as they are not listed in any category of the annex I of the Directive 2012/19/EC (WEEE) WATT DRIVE Antriebstechnik GmbH feels obliged to design its products RoHS compliantly.
